INFOS

Like an ode to your Walkman and to those 90-minute tapes that you used to rewind with your pen, **DA BREAK's** first LP was all about Funk & Hip Hop 90's flavors.

That album immediately found itself on playlists on all your favorite radios (Radio Nova, FIP, Couleur 3, France Inter, RFI, BBC 6...), and enabled Da Break to play live in major festivals and venues (Nuits Sonores, Nuits Zébrées Nova, Radiomeuh Festival, Woodstower, Festival de Marne, Hortus Live...).

This was completely unexpected, a major learning experience, and above all a lot of fun and gave the Lyon-based gang a whole lot of ideas for **the next stage** in their musical journey, propelling them towards new musical horizons: infectious riddims with grooving keyboard & guitar licks as their bedrock and free association leading them into jazz, broken beat, soul or disco vibes ... During the creation of **Let It Shine**, all doors were wide open and all musical genres potentially welcome.

The production still has a « home made » feel to it, like the previous album, but with a modern, sonic twist when needed- a result of three years on the road together and new creative input from group members.

Whether it be on a New York summertime roof-top, or settled in a Low-Rider with some **G-Funk**, or moving to some phat Jamaican style bass-lines or getting sensual on a tight breakbeat, lead singer **Hawa** knows how to shine her feminine and versatile brilliance on the project. She gives to the songs the final touch and the emotion needed to share with us her stories about human relationships - everyday tales sharing her real life-experience.

This ever-expanding musical spectrum, **Da Break play with it, explore it and also let it kick completely free at times** ! Song after song, they bring a magic glow to LET IT SHINE.
