INFOS

Two of the world's most seasoned disco editors, **Michael The Lion** and **Jay Airiness** have renewed their Franco-American alliance for another split-sided EP.

The long-time friends and collaborators were last seen together dropping gems in 2016, and now they've reunited for a double-barreled sure-shot DJ-crate sure - four diverse cuts for all times of night.

Philadelphia-based **Michael**, best known for his work with Soul Clap Records and Razor-NTape, lets loose on the A-side with two secret weapons from his DJ sets - the aggressive, anthemic disco funkier "Direction NYC" and the loopy burner "Don't Know".

Jay, one of the hardest working producers in France is fresh from new efforts with his famed Venice Beach and DJ Moar projects. Jay brings a live session of jazz horns and woodwinds to the fore with "Jazzy Mind". On "Disco Dance", he rides a tight piano groove right out of the canon of French disco onto the modern dancefloor.
