## INFOS:

**Managua: Nahuatl language – adjacent to the water**

**J-Zen** is a French producer signed on **Dooinit music**, his style is a mixture of heavy beats and samples crushed to the point of making them unrecognizable.

He made his debut on the beatmaking scene with his first beat-tape called **Breakfast**, but it's with **Guilty Pleasure EP**, alongside Shawn Jackson and Substantial and released in 2010, that he really revealed himself to the public.

Since then, he's collaborated with **Georgia Anne Muldrow & Declaime** on the single "God Music", a custom-made production for the California duo, and has shared the stage with the greatest (DJ Premier, Dilated Peoples,...)

His first album **Managua** is available now. Started between Rennes and Paris, recorded in California, Berlin, NYC, Paris, Portland, mixed in San Diego, mastered in LA and Costa Rica, this project and J-Zen have traveled a lot to finish their trip in *Managua*, where he stayed for a few months.
