INFOS

We are proud to announce the creation of our label **Discopathe Records**! As our first release, we chose to defend **Ginger Ale**, the debut album from **Soyouzz**, a young band from Montpellier (France). This first EP influenced by modern jazz/funk vibrations was inspired by Herbie Hancock, Snarky Puppy, Vulfpek and Louis Cole.

Welcome aboard **SOYOUZZ** spacecraft. Let yourself be led into a unique and colorful retrofuturistic sound experimentation of 25 minutes and 5 steps to **Ginger Ale**. A collective of six musicians will be your captain. You will feel some pleasant turbulence during the flight, as you will go through deep bass sound with curls from brass instruments, going from a killer groove to a mind-blowing trance. Don't panic, the spacecraft will stabilize by flirting blithely with electronic music.
