INFOS

Following the recent success of **French Disco Boogie Sounds**, DJ and producer **Charles Maurice** is back on Favorite Recordings, this time engaging a musical World tour, in the search of hidden productions with a touch of AOR style.

The result is **AOR Global Sounds**, a new compilation made of 8 forgotten and rare tracks produced between 1977 and 1982 in all parts of the globe.

At the end of the 70s, many artists over the world were deeply influenced by AOR's famous stars such as Steely Dan and his classic *Aja* LP, looking to reach the same attention to sound production and details, and this specific Westcoast style mixing together Pop-Rock standards, with Soul (sometime Disco) and Jazz influences.

From **Erik Tagg** in Netherlands, and **Ulla** in Poland, to **Diane Tell** in Quebec, and **Nohelani Cypriano** in Hawaiï, Charles Maurice found a real link between these 8 great songs and artists, in their music clearly infused with this special AOR touch, in a Soulful and Disco way.

This perfect soundtrack for the summer has been fully remastered from original versions, and is presented by **Favorite Recordings** in a deluxe vinyl version, housed in a tip-on jacket. A must have for rare-groove music collectors and many more...
