INFOS

Favorite Recordings presents this new official album reissue of **The Parker Brothers**: Maybe one of the best Blue-Eyed-Soul/Modern-Soul private-press albums you can imagine, surprisingly highly unknown and underrated.

Produced in 1981 by **George P Grexa** and released in a private-press version on his label **Crown Vetch Enterprises**, this album is filled with memorable material from the first note to the last, mixing Modern-Soul, Boogie, cross-over Jazz and Rock elements, for a result reminiscent of the WestCoast music' golden years, however being recorded in Pittsburgh.

As one of the longtime favorite collectable piece for **Charles Maurice**, it's a real honor and proud for Favorite Recordings, to finally officially reissue it from the original master tapes and for the first time on vinyl.
