INFOS

Hands On Productions proudly presents ***Memory Train***, a new official single by **Marvina Gin**. A funky soul groove with harmonious melody that makes you want to get on that train.

Hands On Productions was founded by **Leroy Quintyn** in the early 90's in London. His career began in New York City, working for several recording studios. At the same time he was one of the composers and a member of a group called **Ryo** (electro pop/soul). While working in recording studios like **Platinum Island** in New York City as an assistant engineer, he worked with **Mantronix**, **Joyce Simms**, **Shannon**, and more... After Platinum Island, he left to continue his musical adventure with "The Science-Lab", where he was assistant engineer on the Spike Lee's music soundtrack ***Do the Right Thing***, featuring Philip Bailey from Earth Wind and Fire, Gerald Alston from the Manhattan 5 Stars and many more...

In the beginning of the 90's he moved to London to start his solo career. He produced an Irish hip-hop group called the **Marxman** featuring Sinéad O'Connor for Polydor Records. He wrote for lead singer of Massive Attack, **Shara Nelson**, on her solo album, he also worked on the first album of **All Saints**. During his productions he worked for a record label called **Gee Street Records** based in London, New York and Jamaica. There he worked with **PM Dawn** engineering and composing, **Stereo MC's**, **Grave Diggers**, **Chaka Demus & Pliers**, etc... In the meantime, he also collaborated with **Alpha Blondy**, or Senegalese hip-hop group, **Positive Black Soul**, and delivered a lot of remixes for the like of Angelique Kidjo, or Roy Ayers to name just a few.

Pursuing his collaborations ***Memory Train*** is one of his latest release, now available as vinyl 12inch and Digital.
