## **INFOS**

A 12inch single from the incredible French Afro Funk band including remixes by the one and only **Osunlade** under the collective name of **Yoruba Soul**!

Since their first acclaimed album *Apiapo* and its irresistible single "Pas contente", these Lyon (France) natives never turned down the heat over 160 stages across Europe, Africa, Canada, Japan... **Peter Solo** has displayed his amulets, voodoo chants and charisma around the globe. When it came time for them to harness their Afro Soul sound for the second time, they turned their attention once again to their analog strengths. On the road Peter Solo and Osunlade met and could share their musical visions. It was obvious that this two will share their spiritual music experiences.

*Kidayu* is the name of the second opus which means "sharing": it's exactly what those versions of "On se pousse" are about: a true futuristic Hi-life, a great meeting of two ardent defenders of the Afro Soul sounds ! Limited press, mastered by Carvery.
