## **INFOS**

Afro funk and Political Soul from Togo.

Recorded in the beginning of the 80's and self-produced by **Itadi** in 1983 , this obscure album contained deep soul and controversial rare grooves backed by the 5 band members called the "Afro Funk Band de Lomé".

Itadi's music is unique, in his second album, he kept the same recipe: a mixture of soul, reggae, hi-life and Funk, with heavy lyrics which sounds like slogans and caused him big trouble after its release. He was obliged to escape the country to USA. A real definition of a revolutionary musician!

This deluxe LP contains also two unreleased tracks, interview, and photos and was fully licensed with his family.

Remastered by Frank Merritt at Carvery Studio.
