INFOS

Kêtu records started as a project which sells original vinyl discs with the aim of promoting African music of the Golden Age (1960-70). We have developed a large network in Africa to trace these original vinyl discs. We also organize events and sell the discs. Part of the profit is reverted to support local initiatives such as local orchestras, O.N.G. that help disables and schools.

For this first single release, **NKOTTI FRANCOIS**, great Cameroonian artist of the 70s-80s and still active on the African scene, signs for a reissue of “**MUWASO MWA LONGE**” and “**NJA KA**”; two amazing titles from the LP *Retro 2000*.
