## INFOS

***Old Souls Carnival*** is the most accomplished Medline's album so far, presenting his new direction in composition and his multi-instrumentalist approach. The project is driven by a strong spiritual background with a deep 70's soul jazz fusion influence, raised into a movie soundtrack dimension.

Each piece reveals a facet of **Medline's** music, origins, tastes and character. Playing with shamanic and exotic harmonies, hybridized with distorted psych funk sound and solidely pulsed by unique polyrhythmic drum beats.

The natural flows of his expression speaks deeply and truely to the senses, traducing 6 months of gathering emotions, traducing feelings, during meditative recordings sessions on the world evolution and reality. The entire album was produced, mixed and mastered by Medline at the family's house, in Messac, offering a perfect immersion in his spiritual and material universe.

The fabulous and mysterious handmade drawings of Stéphane Carricondo, are the perfect rendition of Medline's mestized artwork. Rich with a wide variety of colors and influences, channeled by Medline's own hands, this first 12" record released on his label **My Bags** lives up to expectation. This French-Chilean producer always works outside of boundaries and styles frames, and with this LP shows that extraordinary projects can be expected from him for years to come.
