INFOS

After Nu Guinea's LP, *Nuova Napoli*, and *Napoli Segreta* first compilation, **NG RECORDS** follows up with an exploration into the unknown groovy side of Naples by releasing ***Napoli Segreta Vol.2***.

Famiglia Discocristiana, DNapoli and Nu Guinea team up again selecting more tracks from their archives, for a new compilation containing 9 mysterious Neapolitan tracks, found in the most hidden corners of remote flea markets around the Vesuvius.

But forget classical Neapolitan songs, "O Sole Mio" or "Luna Rossa"... Forget about what you expect to find once you land in town... oh and also forget about Google maps. Take a dodgy local guide, keep your eyes open, and follow it to enter the secret downtown, the underground, the routes that no satellite can detect, but beware there is no easy way out.

Napoli Segreta Vol.2 is a musical journey into the sonic landscapes of Naples that you have never heard of before. A variety of genres merging soul, disco, funk, blues, new wave, afro-beat and boogie, including lyrics in Neapolitan urban slang, instrumental tracks with progressive flavour, and also some unexpected covers!
