INFOS

Following the success of the Retro-Zouk mixtapes series (4 volumes / 15k plays on Soundcloud), **Secousse Radio** proudly presents its first official vinyl reissue of a long lost Zouk banger.

Originally released in 1993-1994, those two tracks have been road-tested in various clubs and parties for months and the feedback is clear: it's dancefloor devastation business.

Their author is **Jules Henry Malaki**, an established and self-produced artist from Guadeloupe, a French overseas island in the Southern Caribbean Sea.

As the popularity of Zouk music keeps growing every day in Europe, America and Asia, just whisper the name "**Makiyaj**" to any of the best DJs from the current tropical diggers scene and watch their eyes scintillate... This secret weapon shall not remain secret very long.
