INFOS

Almost 3 years after the release of his first album **Seventy Seven**, **G's Way** is back with his new album entitled **Patchwork**, to be released october 10, 2014. It is with the same ingredients that G's Way comes to light: a powerful rhythm section, served by a heavy brass section and talented soloists from the international scene, like the UK trombone player Trevor Mires (on « Kim Helped Me »), who is playing with the famous acid-jazz british band Incognito since many years. Or Gäel Cadoux (on « Space Invaders »), fantastic keyboard player, member of one of the major band in the french jazz-funk scene, Electro Deluxe.

Still leaded, composed, and arranged by **Gérald « GG » Bonnegrace**, **Patchwork** is a real musical rainbow, from pure **funk** (« Gotcha ») to **Latin music** (« jam-session »), through jazz and afro-beat (« Manikou »). But this time, **G's Way** has invited 3 rappers to complete this musical revolution, marking a major change compared to Seventy Seven . The famous french artist Kohndo (« One Nation »), one of the best female voice in hip-hop game made in San-Francisco, Melina Jones (« Took So Long »). And last but not least, Bruce Sherfield (« The Percfect Getaway »), versatile us artist, rapper, singer, spoken word specialist, and of the most important activist of the parisian scene. With this touch of Hip-hop, **Patchwork** finally lives up to its name, and bring G's Way in another dimension ...
