This French Classic Hip-Hop Album for the 1st Time on Wax !!

Description by Moar in 2007:

“For my beginnings in the 90’s, impregnated with this great hip-hop period, but also jazz, rock, soul and funk artists that I never stopped sampling from good all vinyls. This album, in gestation since 2002 began with instrumental version. Just after my arrival in Paris four years ago, I met with many people sharing with me the same view of the music and its exchanges. That’s the reason why this solo album got richer thanks to a lot of interesting collaborations. Enjoy.”
