INFOS

John Milk is your next favorite cocktail: smooth and groovy! Put a large dose of US 60's soul music, mix it up with the best 70's funk music... shake this bomb firmly, then add a dash of afrobeat and a touch of jazz. Here you are! You just enter the recipe of John Milk's first album, ***Treat Me Right***. An album taking you to the milky-way...

After collaborating with **Big Single** and **Favorite Recordings**, John Milk is now working closely with **Bruno "Patchworks" Hovart**, one of the essential French producers. John Milk is the perfect fusion of the "Stone Throw" sound and the "Chin-Chin" or "Plantlife" music. Inspiring and powerful, his sound takes the best with no distinction, of what we love to call "Groove" music. It's no surprise then, that a prestigious label like **P-Vine Records** is now keeping an eye at him.

Treat Me Right single review at lesinrocks.com:

"As we were in a gloomy mood this week, we neglected the power and energy of booty music to get us out of this mess. Thankfully the French records label Underdog Records came to save us from sluggishness. It is solid funk, massive, joyful, John Milk proposes. This new recruit from Lyon France could have boast with no effort having Californian or Philadelphian origins. The Milk is fresh, well charged in protein and his "Treat Me Right" hit could have easily be a "Stone Throw" or "Fat Possum" release. Church organ and hips shaking: the winning combination." – (JD Beauvallet)
