INFOS

On this new opus, the music of **Tribeqa** is tinted with new *Experiments*.

The balafon and the acoustic guitar are next to the turntables and the electronic loops of the remixers PARRAD (ATOM from C2C), SCRATCH BANDITS CREW (Chinese Man Records), SORG (new selection of Printemps de Bourges), BLANKA (La Fine Equipe), LAWKYZ, DAWATILE, STRAYBIRD and more... offering a new sensory journey, a powerful, modern and innovative groove that does not turn its back on traditions.

This album of remixes is a special edition planned for the Disquaire Day, a vibrant homage of the electronic hip-hop scene to this UFO group that bears the colors of the experiment and is already considered cult by some.
